

Note that, as of September 2009, an answer book is not yet available in English, though it is being prepared. This has the virtue of preventing you from looking at the answer too quickly and also encourages you to interact with stronger players. Below are some sample problems. The book has six problems per page. There may be more than one possible solution. Hints are given when each technique is introduced.

The problems in this volume are much more challenging and commonly more hints are given because of the complexity. For example:

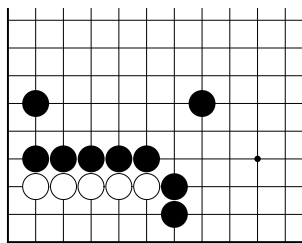

Placement and Jachung [Shortage of Liberties]

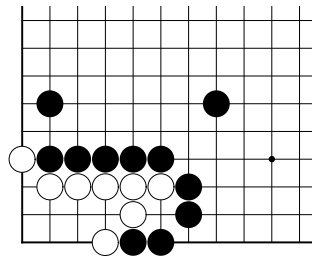

Capture White

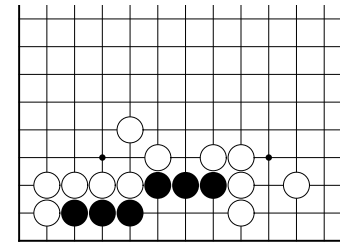

The book contains nine Reviews and a Final Test. Here are some sample problems.
